Placon Medical Polypropylene Trays: **EXPERTISE YOU CAN TRUST**

Designing Complex Solutions for Your Medical Packaging Needs

With over 58 years of experience, Placon Medical has the technical expertise to design and manufacture complex polypropylene (PP) medical trays that meet the highest industry standards. Our PP trays are crafted to handle detailed undercuts and intricate designs, ensuring your medical devices are securely and efficiently packaged.

Why Choose Placon?

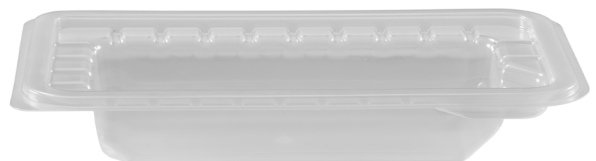

- **Unmatched Expertise:** For nearly six decades, Placon has been a leader in medical packaging, offering unparalleled design and technical experience.
- **Cleanroom Manufacturing:** Our trays are made in ISO Class 8 (100,000) cleanrooms, ensuring the highest levels of cleanliness to meet your sterile barrier requirements.
- **Certified Quality:** Placon is ISO 13485 certified, guaranteeing that our manufacturing processes comply with rigorous medical device industry standards.

Polypropylene (PP) Advantages: The Smart Choice for Medical Packaging

1. Biocompatibility

PP is biocompatible, making it suitable for applications with direct or indirect patient contact.

2. Low Leachables & Extractables

PP's low levels of leachables and extractables minimize the risk of contamination, ensuring the safety and integrity of your medical devices.

3. Temperature Resistance

With the ability to withstand a wide range of temperatures, from freezing to autoclaving, PP ensures your medical devices remain stable and effective.

4. Moisture Barrier

PP provides an excellent moisture barrier, helping maintain the sterility and longevity of your medical products.

5. Sterilization Compatibility

PP is compatible with common sterilization methods, including ethylene oxide (EtO), gamma radiation, and steam autoclaving, making it ideal for end-use applications in hospitals and surgical centers.

6. Sustainability

PP is recyclable, aligning with growing sustainability initiatives in the medical field. As hospitals and healthcare providers increasingly prioritize environmental responsibility, PP's recyclability is a key advantage.

PARTNER WITH PLACON FOR PRECISION AND RELIABILITY⁺

Choose Placon Medical for your polypropylene medical trays, and leverage our expertise, quality, and commitment to innovation. Let's create solutions that protect your devices and the patients who rely on them.
